DAVE McDONALD ADDRESSES NORTH CENTRAL STUDENTS

Mr. Dave McDonald, of Bay St. Louis, addressed the student body of Hancock North Central High School on "Careers in the Construction Industry."

Mr. McDonald cited the construction industry as the oldest of all since it has been in existence since man moved out of the caves. The necessary phases of any structure, which may be classified as residential, commercial, or public works, are money, a plan, and construction personnel. Under the latter heading are the general contractor, mason, electrician, carpenter, roofer, painter, and tile and floor man. The trades are learned either by apprenticeship or in a trade school. Mr. McDonald urged all who are interested in working in any of these fields to study math now and obtain employment during the summer working with a skilled worker in the field of his choice.

Mrs. W. R. Pitcairn Jr., reigned as queen of the second annual Denizens of the Deep mock carnival ball Saturday night at the Bay-Waveland Yacht Club. Commodore Henry Chapman was king.

Maids were Mesdames Richard Shadoin, W. J. Gex Jr., J. H. Plunkett and Fred Wagner. Dukes were T. T. Robin, R. L. Hamilton, Leo Seal Jr., and James McDonald. Richard Hadden was captain of the Krewe.

The queen and maids wore formal in pastel shades. The queen's mantle of pale blue was outlined in sequins and centered with an octopus embroidered in silver, she carried a bouquet of white tulips and blue iris.

The queen was selected from the five maids by drawing a favor with the name queen.

Members of the floor committee were Leo Seal Sr., Roger Boh, N. L. Carter, Horace Kergosien and Norman Benham.

Music for the dance was furnished by Skyliners of Gulfport.

FEED GRAIN PROGRAM REPORTED

of February 15, 1963, 57 farmers in Hancock County have signed up for participation in the 1963 feed grain program, says R. Shaw, Chairman of the Hancock Agricultural Stabilization and Conservation County Committee, has announced. County is eligible to be included in program total 270. "Eligible" are those which grew one or more of the three feed grains - grain sorghum, or barley - in the feed grain program year.

Shaw points out that the 1963 feed grain program offers farmers an opportunity to continue the progress chalked up during the past two years in balance of supplies with estimated needs. At the same time, the program gives participants a substantial return from their acreage which they usually have a heavy investment in.

Under the program, a grower reduces his feed grain acreage (corn) by at least 20 percent of farm's total base acreage (\$60 average) will earn a \$100 payment for shifting the acreage from production to a conservation use, and a price support - on the normal production of the 1963 feed grain plants.

He will also qualify for price support loans and base acreage on all the land produced on the farm's 1963

Telephone Company Improvements

"Mississippi's development required over \$23½ million to provide continued improvement and expansion for Mississippi telephone users in 1962," according to Clarence L. Lott, vice president and general manager for Mississippi. Mr. Lott also stated that 1963 will require more than \$25 million to be spent in Mississippi.

Dial conversions were made during 1962 at Oxford, Starkville, Newton, Philadelphia, Louisville and McComb. Plans are underway to convert Yazoo City and Kosciusko to dial during 1963. During 1962 direct distance dialing came

into effect at Gulfport, Biloxi, Bay St. Louis, Ocean Springs, Pascagoula, Pass Christian, McComb, Columbus and Tupelo. For 1963 DDD is scheduled for Jackson, Canton, Clarksdale, Greenville, Kosciusko, Meridian, Natchez and Vicksburg.

During 1962, rural telephone service was improved and expanded. More than 7,000 rural customers were added bringing the total number of customers in rural areas of Mississippi to approximately 88,000.

In 1962, Southern Bell of Mississippi netted more than 28,000 stations bringing the total number of telephones in the state to more than 487,000. By the end of the year, the total investment in payroll of over \$22,475,000. A total tax bill paid on Southern Bell's operations in Mississippi came to more than \$20,275,000.

J. C. Dabney, manager for Southern Bell in Gulfport added Mississippi was over \$104,000,000. At the end of the year 1962, there were 4360 Southern Bell employees in Mississippi receiving an annual that during 1962 plant extensions were made north of Lyman to serve more than 135 new subscribers in the Saucier and Success areas at a cost of \$87,458.00. At the same time a new building was begun and completed to house a new dial exchange at Lyman. The new exchange is scheduled to be in service during the first half of 1963. On or about the time the new exchange is placed in service our plant will have been extended west of Lyman to include the Liza area to serve approximately 139 new applicants. The estimated cost of the new exchange and the plant extension to the Liza area will be \$701,305.

NEW ADMISSION REQUIREMENTS FOR OLE MISS FRESHMEN

University, Miss. - Two new admission requirements for entering freshmen have been established by the University of Mississippi effective with the 1963 Summer Session and thereafter, according to an announcement by Robert B. Ellis, Ole Miss registrar.

Mr. Ellis stated that an applicant for admission must be a graduate from an approved secondary school with a transcript which includes the following minimum units: three in English, two in mathematics, two in history or social science, and five additional in academic subjects.

Also, the composite standard score earned on the American College Test must be at least 15 for a resident of Mississippi and 19 for a resident of another state.

According to Mr. Ellis, an applicant who fails to qualify for admission under the foregoing test score provisions may be given further consideration based on the quality of his record from the secondary school.

In all such cases, a resident of Mississippi must have ranked in at least the upper three-quarters, and a resident of another state must have ranked in at least the upper one-half of his senior class.

The new requirements were recommended by the Committee on Admissions. Mr. Ellis said, "These requirements are designed to select those students who can reasonably be expected to at least meet the University's minimum admission requirements."

The registrar further stated that each year over the past few years the freshmen class at the University has been a better quality

group than its predecessors, and that is the University's belief that Mississippi high schools are graduating better prepared candidates for college.

MOVEMENT STARTED OVER MISSISSIPPI FOR YOUTH LEAGUES

"Go Dixie all the way" is the theme of a state-wide movement to organize a uniform youth baseball program for Mississippi youngsters between the ages of 8 and 17.

Frank Cochran of Meridian, a National Director of the Dixie Senior Baseball, Inc., has mailed a newsletter to cities and towns throughout the state urging them to organize into Dixie Youth Baseball (8-12) and Dixie Senior (13-17) Programs for 1963.

Dixie Youth Baseball is already operating in Mississippi with 65 franchised leagues in the state. Dixie Boys Baseball was inaugurated in Mississippi last year and the Dixie Senior Program will be operated in this state for the first time this year.

The state will be divided into six districts for play in the Dixie Senior League. District champions will meet in a state tournament with the winner advancing to the Dixie Senior World Series at Monroe, La., in early August.

Floyd Johnson of Yazoo City is National Commissioner of the Dixie Youth Baseball program and A. L. Green of Laurel holds that post in the Dixie Boys Baseball program.

Mr. and Mrs. Edward Heitzmann, their son Gary and daughter Peggy will leave over the weekend for Shreveport to visit for a few days with their son-in-law and daughter, Lt. and Mrs. James Duffy.

TEAMS MAKE TROPHIES

All District Eight teams sponsored and made trophies were presented a trophy Saturday night at Mississippi following the District Eight tournament at E. Frank Hall Memorial gymnasium.

Girls making the all-district squad were Faye Meyer, Kate Meyer, and Elaine Fowles of Hattiesburg; Helen Daughdrill, Beal and Elizabeth Holden of Poplarville; Marietta Martin and Shorty Miller of Leakeville; Pat Kirkland and Brenda Greaser of Pearl River Central; Susie Downing of Bay High, and Judy Grantman of Forrest County AHS of Brooklyn.

Three Gulfport and three Hancock North Central players headed the boys all-district squad. Lionel Hoda, Berlin Ladner and Eugene Ladner were named from North Central. Jerry Gauthier, Bobby Bilbo and Butch Morgan represented Gulfport.

Other boys on the team included Gale Farmer and Paul Ladner of Harrison Central, Bill Wilkerson of Pascagoula and Cary Trocheset of Biloxi.

Gulfport and Hancock North Central in the boys division, and Poplarville and Pearl River Central in the girls division will represent District Eight in South Mississippi tournaments this week.

Dr. Charles King, president of the Nutrition Foundation, says there is no substantial evidence to justify a radical shift from a moderate use of good quality protein foods, such as milk, meat, poultry, eggs and fish.

OUR SON

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Robert Edward, Junior — that's his name. But soon it will be Bobby. And after a while he and I will probably be known as Big Bob and Little Bob.

Funny how you start looking ahead. When I came out of the shop today I happened to notice our sign — the big one with my name on it that hangs over the door. And I thought to myself, maybe someday we'll add: & SON...

But Marge and I know better than that! You can't plan your son's life for him. He's got to make his own decisions, choose his own road.

One thing we have decided for him, though. That he's going to have all the moral and spiritual training a man needs to make right decisions and follow a straight road.

This God expects of us — of all parents. And our church is ready to do its vital part.

WOW! What a January We Had!

But you and your family—and many thousands of other folks enjoying natural gas service—were comfortable and cozy during January's long period of freezing temperatures, dampness and bitter north winds. At your fingertips were adequate supplies of natural gas to keep you warm, cook your meals, furnish plenty of hot water, dry your clothes and perform other big jobs around the home.

You use more gas, of course, during cold weather. And when you consider ALL the solid comfort and convenience you get from natural gas, we think you'll agree...dependable natural gas service is still the biggest bargain in your family budget.

UNITED GAS
SERVING THE Gulf South

Kantcha Ketchum

Seems like the cold weather just won't leave. This has been the most continuous cold weather we have experienced in years. According to the old adage "It winds blow some good" could apply to fishing. We have experienced in the past that after a severe winter both fresh and salt water fishing is better. Hope it's that way this year.

Went fishing up at Pearl River Saturday. The waters in that area are bad except in the head of the bayous and fish were not striking in them. Again the cold weather was the cause. Some few green trout have been caught in ponds and lakes where the grass has disappeared. These same places cannot be fished in the summer time due to too much grass. In these places the fish get bigger and bigger, which is the cause for someone catching that real big "Ugly Boy" occasionally.

An article from Tucson Arizona tells of a tiny generator, powered by a miniature gasoline engine. It is particularly useful for camping. It delivers 50 watts of 115-volt current, yet only weighs nine pounds. Should solve the lighting problem and make campers very happy.

An ordinance to close all oyster areas in the Biloxi vicinity went into effect Sunday, according to Mississippi Marine Conservation Commission officials.

Upon advice of authorities and a recommendation of marine biologist William Demoran, the commission said it was convinced that the action is in the best interests of the industry, and the protection, propagation and conservation of oysters.

Our salt water fishing is not so hot just now. For those who crave catching those big monsters, a report from M'Fadden Duffy in the Times-Picayune tells how they are catching them at Empire, and Grand Isle. Listen to this:

With the weather warming up during the latter part of last week, fishermen out of Empire experienced what they termed "The best weekend this winter."

All of the charterboats and the outboard hulls returned to the dock with plenty of fish on Saturday, and again on Sunday. Catches were made up of bull redfish, white trout, plenty of blue fish, and Spanish mackerel. The red snappers were not huge, but they were so numerous that anglers had a field day catching them.

We expect to go on a trip to Empire next week. Hope M'Fadden was right.

Mr. and Mrs. W. P. Bosworth are ardent fishermen and expect to do lots of it when the weather warms up.

NOTICE OF TRUSTEE'S SALE

WHEREAS, on the 8th day of April, 1961, Albert C. Paulk and Jeannette P. Paulk executed a deed of trust to Lucien M. Gex, trustee, to secure an indebtedness therein mentioned to Delmar E. Wilcox, which deed of trust is recorded in Vol. 85, page 66, Records of Mortgages and Deeds of Trust on Land in Hancock County, Mississippi, and

WHEREAS, the said indebtedness so secured is past due and unpaid, and

WHEREAS, Delmar E. Wilcox, the holder of said indebtedness having requested me, the undersigned Trustee, to foreclose said deed of trust,

NOW THEREFORE, I will on Monday, March 11 1963 between legal hours offer for sale and sell to the highest bidder for cash, in front of the front County Court House Door of Hancock County, Mississippi, the land situated in Hancock County, Mississippi, and described in said Deed of Trust as follows, to-wit:

FIRST: Beginning at the intersection of S. line of Railroad Ave., and W. line of Oak Street, which may be further described as the NE corner of Block 4, Clermont Harbor, Miss., thence running S. 20° E 55 feet along W. line of Oak St., to a corner fence post; thence running S. 70° W. along a fence line 107 feet, more or less, to the W. line of Lot 4; thence running N. 20° W. 36 feet along the W. line of Lot 4 to an iron stake set on S. line of Railroad Avenue, thence running N. 88° 32' E. 103.5 feet, more or less, along the S. line of said Avenue, to the place of beginning. Being a part of Lots 1, 2, 3, and 4, Block 4, Clermont Harbor, Hancock County, Miss., as per the official plat of said Clermont Harbor made by John S. Pearce, Surveyor on May 31st, 1911.

Being the same land acquired by Albert Clifford Paulk and wife, Mrs. Jeannette Pickle Paulk by

and pretty busy says he hopes to catch up on his fishing soon.

Edward I. Jones has returned from a trip to San Francisco and says he has a lot to do, for instance taking care of his pond and fish. Would be a good idea to take some big ones out, Eddie, and give the little ones a chance. We can do the job.

There will be a hot time in the old town (New Orleans) when many from here will spend Mardi-Gras in that city next week. There will also be some tired and sore footed boys and girls from here who will play in bands participating in the many parades to take place each day and night.

IMPORTANT TO GOLFERS: There will be a Seniors Tournament held at Pass Christian Isles Golf Course this weekend, Saturday and Sunday, Feb. 23 and 24th, for seniors only. Saturday, Feb. 23, non-seniors start playing at 8:00 a. m. Seniors have golf course priority. Sunday, 24th the course will be closed until 2 p. m. for non-seniors. A good time should be in store for all participating. There will be a fee for those entering the tourney and prizes awarded.

A number of golfers took advantage of the good weather of the past weekend and toured the course at Pass Christian. Among those noted playing were Mr. and Mrs. Acker, Mr. and Mrs. Welch, Alden Mauffrey, Doc Elliott, John David, Donald Markle and John Scafield, Sr.

Met a real guy in Donald Markle of Pass Christian. Donald who is no kid, plays golf, hunts and fishes. Was telling us of the quail he killed last weekend. Will show you some of our good spots for

fly fishing soon, Donald.

Congratulations on being elected as president of the Ozone Camellia Club to E. J. Willis.

Besides being a champion at growing camellias, E. J. is a good golfer.

Shining nutra Saturday night were August Rautet and son Nicky, David Carter and yours truly. 28 of the ugly creatures were killed. The meat of the nutra is used for making cat and dog food and the pelts are also used. They come out at night but some are also killed in the day time.

They are also hunted by trained dogs. Nutra have large teeth which are used for making ornaments and novelties. When cornered, nutra are vicious and put up a good fight. In some parts of Louisiana there is a bounty paid for killing nutra.

Joining the fly fishermen is Al Mercier. He has purchased a fly rod and other equipment and expects to do plenty of fishing from now on.

After next week we should see

some nutra and nutra fishermen.

Do you know, Bert, about showing up soon to go with us. Do you know, Bert, about showing up soon to go with us. Do you know, Bert, about showing up soon to go with us.

ENROLLMENT SHOWS INCREASE

University, Miss. Second semester enrollment at the University of Mississippi shows a slight increase over enrollment for the same period one year ago, according to figures released today by registrar Robert B. Ellis.

Spring enrollment on the Oxford campus stands at 4,277, while the figure one year ago was 4,228. Also, there has been a 2.3 per cent increase of students listed on the honor roll as compared with figures one year ago, a 1.5 per cent decrease in students dismissed for academic reasons, and a 1.6 per cent increase in students placed on academic probation.

Social Security

Why didn't someone tell me? I only know. I just didn't understand.

And now, men, as well as women, can retire and start getting reduced benefits at 62.

Generally speaking, a beneficiary can now get more in combined earnings and benefits than was possible a few years ago. The amount deducted from your social security benefits because of earnings depends on how much over \$1200 you earn for the year. It is surprising how many people still believe that they cannot get any

benefits if they earn over \$1200. If you are over 65 and have neglected to file for benefits because you work, be sure to check with your social security office at 1022 32nd Ave., Gulfport, Mississippi, telephone UN-4-2022. It costs nothing to inquire and you may stand to gain.

W. H. (HAMP) KING
ANNOUNCES FOR
STATE AUDITOR

Hamp King, Jackson Certified Public Accountant now serving as Director of the State Department of Audit, qualified this week with Secretary of State Heber Ladner as a candidate for State Auditor of Public Accounts in the Democratic primary election to be held August 6.

King, a native of Heidelberg in Jasper County, joined the staff of the Department of Audit as a field auditor in 1953 and came to Jackson in 1956 when he was named Assistant Director of the Department of Audit. He was appointed Director of the Audit Department by the present State Auditor in April, 1962, when Governor Ross Barnett named Dexter Barr to the Chairmanship of the State Tax Commission.

He and his family moved from Cleveland in Bolivar County, where they had made their home for several years and where he was associated in a building material and contracting concern before earning his certificate in public accounting.

Believed to be the first certified public accountant ever to offer in Mississippi as a candidate for State Auditor of Public Accounts, King in his announcement calls the attention of Mississippi voters to their custom of electing a lawyer as their Attorney General and a professional educator as State Superintendent of Education and suggests that the chief elective fiscal official of the state should normally be a professional accountant and auditor with an extensive knowledge of the financial operations and structure of the state government and its subdivisions.

Hamp, as he is known to friends throughout the state, is an active member of the Mississippi Society of Certified Public Accountants, serving on a number of committees of that group during the past few years, and serving the Jackson Chapter of the Society in every official capacity at some time during the years since 1956. A member of the Official Board of Gallows Memorial Methodist Church for five years, he has served the Church School there as a teacher and as Superintendent of the Adult Division and has occupied the pulpit on Layman's Day. He is also a sustaining member of the Mississippi Association of Methodist Ministers and Laymen, a volunteer organization resolved to respect and maintain racial customs in churches, schools, conferences and jurisdictions.

A charter member of the Cleveland Little Theatre, he has had occasional roles in Little Theatre plays since moving to Jackson, and participates in a number of other cultural and civic activities.

He is a member of the Jackson Optimist Club and a Mason, taking pride in the fact that the Masonic Lodge in his native community of Heidelberg is named for his father, W. E. King, and that his mother was a charter member and the first Worthy Matron of the Heidelberg Chapter of the Order of Eastern Star.

Mr. King holds a B. A. degree from the University of Mississippi, where he continued his education after attending the Heidelberg Public School and Hinds Junior College at Raymond. He also has studied at the YMCA Graduate School in Nashville, Tennessee, and Blue Ridge, North Carolina.

Mrs. King, the former Douglas Banks of Jackson and Baldwin, Mississippi, and a graduate of Millsaps College, has been a librarian and language teacher in High School at Raymond for the past five years. She taught at the Boyle High School in Bolivar County for a number of years.

Two daughters comprise the rest of the King family. Carolyn or "Cae", an MSCW graduate of 1957, married an Air Force Cadet whom she had met at Columbus. Capt. Jack Andrew of Iowa, and became a homemaker wherever the Air Force sends her husband. Their current location is at Loring Air-Force Base, Maine. A younger daughter, Kay King, now a College Freshman, was an honor graduate of Murrah High School in Jackson in 1962.

CORN RECOMMENDATIONS

High producing corn is profitable. To make your corn acres grow the most corn, here are some suggestions:

Land selection is the first step. Corn does best on deep, well-drained soils. Then prepare the land properly. This means flatbanking at least six inches deep, and if possible, 10 inches. This will let the roots go deeper and will improve the water holding capacity of the soil.

Plenty of fertilizer is a must. For best results a soil test is needed. But in absence of a soils test, use the general fertilizer recommendations.

These are - hills, 36 pounds of nitrogen, 48 pounds each of potash and phosphate to the acre at planting time. Then side dress with 60 to 90 pounds more nitrogen when corn is knee-high.

Proper placement of the fertilizer is vital. To prevent root damage, place the fertilizer at least three to four inches below the seed and three to four inches to the side of the seed drill.

South Mississippi - white corn, Coker 811 and Dixie 55 (early planting); yellow corn, Dixie 18, Coker 87, Coker 71, DeKalb 1225 and Funk 7740.

Remember if growing corn silage, the best quality corn silage is made from hybrids that produce high grain yields. Plant corn for silage 20 percent thicker than for grain.

TREE PLANTING

Watch for the slogan "Plant Trees - Grow Jobs." It means just what it says.

Here are a few of the things tree planting means - 10 new industry jobs for each 1,000 acres of timber, increased land values, more recreational areas erosion control, wildlife cover and idle land being put back to work.

MEETINGS

Southeastern States Pecan growers Association meets February 27-29 at Biloxi; Cotton Awards day at Mississippi State University February 13; Pest Control Workshop at Mississippi State University 21-22; Mid-Southern Cotton Gin Operators Schools at Memphis, February 18-19.
